## Great sound. Engineered. We make life sound better

Great sound is so much more than *just* sound. It's a way of transforming lives. That's why we make it our life's work to be the experts who deliver incredible sound. We believe that having some of the world's best sound engineers, in addition to the most advanced acoustic testing and development facilities, enables us to make solutions that are truly intelligent and beneficial.

### Engineered for purpose

Hundreds of hours of research and meticulous engineering go into each and every Jabra product. The result? Products that are innovatively engineered for purpose, and technology that won't get in your way but will have a huge impact in making what you do better, more efficient, and more productive. We inspire people to go further than before.

Jabra is proud to be part of the GN Group – a brave and inventive group of people who have been breaking frontiers for 150 years. From our home in Copenhagen, Denmark, the GN Group revolutionized communications by laying the world's first submarine cable, which carried the first telegraph line linking East to West and brought the world closer together. The spirit of the GN Group inspires us to break boundaries of our own – for example we've created the world's first ultra noise-cancelling microphone, the world's first Bluetooth® headset, and the world's first sports headphones with integrated heart-rate monitor, to name just a few.

Elite 85h

### **Pushing creative limits**

And we don't just share the GN Group's pioneering spirit, we share their knowledge and expertise, too. Our engineers advance technology, set new standards, and push their limits, sharing what they create within our group. Consumer tech makes its way into professional tech, medical-grade sound solutions make their way into consumer products, and always with the same goal – to make life sound better.

Thanks to our close relationship with ReSound, our sister brand, we have unrivalled sound capabilities. ReSound are world-leading hearing-aid experts who blend design and technology to bring people with hearing loss closer to the things they love.

### **Personalized hearing experience**

These powerful, discreet, and smart hearing aids can now be controlled by integrated apps. This delivers a natural, personalized hearing experience and can transform the hearing aids into wireless stereo headphones.

Anyone can make sound, but we settle for nothing less than the world's best. Because great sound isn't just made.

**It's Jabra engineered.**

# Jabra Sound+ app

The **Jabra Sound+ app** is the perfect companion to your Jabra headphones – adding extra features and letting you personalize the way you use your Jabra device. Choose your voice assistant, customize your music profile, modify how much nearby noise you want to hear, keep track of your battery charge, and much more\*. The app will constantly evolve; delivering new features to further enhance your headphones. As time goes by, the app becomes even better – and with it so too does your Jabra experience.

To learn more about the **Jabra Sound+ App** go to [jabra.com](https://jabra.com)

\*Certain features, such as ANC, depend on which Jabra headphones you have.

## **Wireless** calls & music

Intelligent sound solutions  
optimized for your life on-the-go

## Jabra Elite Series

### Engineered for superior wireless calls and music

Enjoy the best wireless calls and music experience on the market with our Elite Series headphones.\* Engineered for life on the go, from best-in-class battery to comfortable memory wire neckbands, to superior true wireless earbuds and headphones with ANC and wind noise reduction microphones, your conversations and listening needs are made easy.

Elite 85h

\*December 15th, 2017. See facts on [jabra.com/commercial-claims](http://jabra.com/commercial-claims) \*\*Operating System dependent  
\*\*\*Registration required with the Jabra Sound+ app

Elite 65t

The Elite Series perfectly combine form and function, making all-day wearing a reality and ensuring superior sound – whether that’s the sound you’re listening to, or what the person you’re talking to hears. Because everyone has their own requirements when listening to music, each Elite allows you to personalize your sound with a customizable equalizer.

Every Elite comes with one-touch access to voice assistants like Alexa\*\*, Siri® and Google Assistant™. It’s the future of voice command, at the touch or tap of a button. And with a 2-year warranty against damage from water/sweat and dust\*\*\* – Elite headphones work no matter how active your lifestyle.

Elite 45e

Elite 65e

New!

- Smart Active Noise Cancellation (ANC) for superior sound
- Purpose-built speakers offer a distinctly sharper music experience
- Get up to 36 hours battery life (ANC on)
- 8 microphones for enhanced call quality
- Instant access to Amazon Alexa, Siri®, and Google Assistant™\*\*\*
- Go anywhere with a 2-year warranty against water and dust\*\*\*

Available in:

# SmartSound: Audio that automatically adapts to your surroundings

With **SmartSound**, you can adapt your sound experience to your surroundings, you can adapt your sound experience to your surroundings, (Moments) by customizing audio modes (Active Noise Cancellation / HearThrough), music EQ, headphone assistance, and your own voice amplification. SmartSound analyzes your sound environment and automatically applies your personalized settings, to give you the sound you need, when you need it.

## Jabra Sound+ Moments

### In public

When you are in an environment where you need to be able to hear your surroundings – for example, on a train platform – SmartSound can automatically enable HearThrough technology.

### Commute

SmartSound can detect when you are in an environment with a lot of unwanted background noise – a train, for example – and automatically switch on ANC.

### In private

If you are alone or in a quiet environment, SmartSound can automatically turn off the ANC and HearThrough to save battery.

Access SmartSound technology by downloading the Jabra Sound+ app, where you can personalize each moment with your choice of audio and music settings.
